Installing the MMM Ricoh IM C3000 Printer – Mac OS Instructions

Download the printer driver:

- Download the macOS driver from the web: <u>https://support.ricoh.com/bb/html/dr_ut_e/rc3/model/imc3000/imc3000.htm</u>
- <u>Select</u> your macOS version and Download. After the download completes, browse out to In Downloads open Ricoh_IM_C3000_C3500_C4500_LIO_1.8.0.0.dmg Double-click on the file and to mount dmg file.
- Next run Ricoh_IM_C3000_C3500_C4500_LIO_Driver.pkg install file and install the driver.

Add the printer:

- Open System Preferences and Printers & Scanners
- Click "+" under Printers list to add a printer
- In the Add Printer window click IP
- For *Protocol:* select the LPD option
- For Address: **129.105.102.61**
- For Name (for example): MMM Ricoh IM C3000
- For Use (or Print Using): Use the pull-down menu to Select Software...
- In the filter, start typing **RICOH IM C3000**
- Optionally, for **Location**, you may want to enter a description to identify this printer in **MMM**.
- Click Add
- Click OK
- Close Printers & Scanners

Next go back to System Preferences – Printers

Select the ESAM Ricoh printer and click on Options and Supplies

The click on the Options Tab and make sure it is configured as the following:

here. For information on your printer and i	ts optional hardware, o	check the printer's
